

EZBiz Broadband ADSL/ADSL2+

Adam Internet's ADSL2+ range of services are a revolutionary step for Internet connectivity in Adelaide. These high-speed services allow access to streaming media, large websites, VOIP and a wide range of other Internet applications that have previously been impossible with traditional technology.

ADSL/ADSL2+ provides both data and voice over the same copper line, so you can be permanently online and use your existing analogue (phone/fax/eftpos) devices at the same time.

Adam Internet has its own AdamDirect ADSL2+ enabled exchanges in South Australia providing Next Generation Broadband right now for your Business needs. AdamDirect services are capable of download speeds of up to an incredible 24Mb/sec and upload up to 2.5Mb/sec with AnnexM. You can connect at faster speeds and longer distances from your telephone exchange, and in some cases connect ADSL where previously it was unavailable.

EZBiz Broadband packages are especially designed to include a professional-grade ADSL/ADSL2 connection with a wide range of speed/data options, ensuring that you get a plan that suits your exact requirements. Our EZBiz Broadband services also include business-grade hosting of your email and website using your own domain name. All EZBiz services have access to our premium business helpdesk to ensure that any queries are addressed as quickly and efficiently as possible.

Our EZBiz Broadband packages include :

- ✓ Business-grade ADSL/ADSL2 connection to your premises including unlimited uploads
- ✓ Static IP Address with option to add additional IP Addresses if required
- ✓ Bonus off-peak data allowance
- ✓ Supply of business grade hardware with firewall protection including 1 hour Hot Swap
- ✓ Priority Business Technical Support
- ✓ Disaster Recovery dialup 24x7
- ✓ Local Call National Roaming (50hrs pa FREE)
- ✓ Choice of either a Shaped (fixed price) or Premium (always full speed) data allocation
- ✓ Hosting of your business domain email with either 20 user accounts or support for your own server, including comprehensive Email Spam and Virus Filtering
- ✓ 100MB Space to host your own business website using <http://www.yourbusinessname.com.au> including full hosting features such as CGI, PERL and MySQL so you can run an interactive site / shopping cart

EZBiz Broadband has a low once off setup fee of \$149 including Activation of the ADSL service on your telephone line.

EZBiz Broadband ADSL2 – Speed up to 24,000K/1000K	Included Data per Month	Annual Cost
EZBiz Broadband ADSL2 Starter	10GB + 10GB bonus off-peak	\$ 1128.00
EZBiz Broadband ADSL2 Light	20GB + 20GB bonus off-peak	\$ 1248.00
EZBiz Broadband ADSL2 Medium	40GB + 40GB bonus off-peak	\$ 1488.00
EZBiz Broadband ADSL2 Average	60GB + 60GB bonus off-peak	\$ 2088.00
EZBiz Broadband ADSL2 Super	80GB + 80GB bonus off-peak	\$ 2568.00
<i>On AdamDirect ADSL2 plans 1500K/256K is our minimum guaranteed speed. The maximum speed will depend on your equipment and the length/quality of your telephone line from your local exchange.</i>		

Priority Business Technical Support

Business customers are provided with a priority support phone number for speedy resolution of any technical enquiries 7 days per week.

National Roaming Dialup

Included with EZBiz Broadband, Adam Internet will provide you with local call national roaming dialup with up to 50 hours per annum. Additional hours can be purchased for \$1 per hour.

Choice of Fixed Price or Premium billing options

On fixed price setting (default), your account will be 'shaped' to 128K speed, until your next billing cycle should you exceed your data allocation. On premium price setting (optional) your account will never be slowed, with data above your allowance billed at only 1c/MB.

For areas where AdamDirect ADSL2+ is not available, we can offer the following ADSL1 products :
